Gahui Kim

CURRICULUM VITAE

AXIS Lab · Interaction Science Institute · Sungkyunkwan University
Seoul, South Korea · gahee020907@gmail.com · gahee020907.github.io · Google Scholar

RESEARCH PROFILE

Seeking doctoral opportunities in 2027. Available from May 2027 onward; start date flexible.

HCI researcher developing and evaluating interactive AI systems. Led smart-glasses projects on proactive research ideation and immersive AI companionship, from study conception and prototype development to controlled user experiments. Interested in how people think, create, and connect with AI, and in designing accessible interactions that support their choices.

RESEARCH AND PROFESSIONAL EXPERIENCE

AXIS Lab, Interaction Science Institute, Sungkyunkwan University 2024–present
Undergraduate Research Assistant (2024–Feb 2025); Master's Student Researcher (Mar 2025–Aug 2026); Researcher (Sept 2026–present). Contributing to projects on proactive AI and human cognitive mechanisms in always-on AI environments, and continuing prototype-based research on AR smart glasses, socially visible sensing, and immersive human-AI interaction.

Researcher and App Developer, Personalized AI Story Generation Project 2026
Conceived and led Phodong, directly developing an iOS app with SwiftUI and Firebase that turns children's real-world object discoveries into personalised stories. Implemented age-adaptive generation, parent-gated controls, and discovery-to-story logging.

Assistant Instructor, Generative AI Content Creation Workshop, Hyundai Futurenet Jul 2026
Supported hands-on workshop activities on generative-AI content creation, including participant guidance and practical exercises for producing AI-assisted visual and interactive media.

XR Development Intern, RGB Makers Co., Ltd. Aug–Dec 2025
Led projects from concept through production, creating character animation and video content using Unreal Engine and Character Creator; developed a MetaHuman character; analysed first-person interaction data and privacy risks; proposed outdoor interaction scenarios for immersive experiences.

BK21 Research Assistant, Social Interaction Big Data Education and Research Group Mar – Jun 2025
Supported immersive-device user research at AXIS Lab through literature review, study and protocol preparation, participant recruitment materials, lab setup, research ethics documentation, and data management.

EDUCATION

Sungkyunkwan University · Master of Science in Engineering, Immersive Media Engineering Mar 2025 – Aug 2026
Advisor: Prof. Changjun Lee · AXIS Lab · Cumulative GPA: 4.45/4.50 (99.5/100)
Thesis: *When Sensing Becomes Socially Visible: Wearer Meaning and Adoption Resistance in AR Smart Glasses*

Sungkyunkwan University · Bachelor of Culture & Technology; Bachelor of Economics Feb 2021 – Feb 2025
Major in Culture and Technology Convergence; International Trade and Policy. Cumulative GPA: 4.32/4.50 (98.2/100). Graduated with SKKU Summa Cum Laude.

PUBLICATIONS

PEER-REVIEWED CONFERENCE PUBLICATIONS

Kim, G., Choi, Y., Kim, Y., & Lee, C. (under review). Goodbyes Matter: Immersive Relational Offboarding for Reducing Loss When AI Companion Interactions End. *CHI 2027*. Manuscript under review.

SELECTED FUNDED RESEARCH PROJECTS

Youth-Focused AI Risk Evaluation Benchmark Development — Researcher · ETRI · 2026
Proactive AI and Human Cognitive Mechanisms in Always-On AI Environments — Researcher · NRF · 2026–present
Personalized AI Story Generation for Children — Researcher · Seoul RISE · 2026
Interactive Experiential News Game Research and Development — Researcher · SKKU RISE · 2025–2026
Screen Multimodal Interaction Research · Big Data Analytics Team — Researcher · Samsung Electronics · 2024
Virtual-World Multi-Persona Tendencies and Cognitive Enhancement — Researcher · NRF Korea · 2025
Urban Green Exposure, Mobility, and Health — Researcher · AI Convergence Research Support · 2025
Psychological Counselling Chatbots: Humanities–Engineering Convergence — Researcher · NRF Korea · 2026
News and Social-Media Issue Analysis for the National Health Insurance Service — Researcher · NHIS · 2024

SELECTED RESEARCH AND PROJECTS · PORTFOLIO AND DEMOS

AR Smart Glasses and Socially Visible Sensing — Master's thesis, 2026
– Designed a scenario-based experiment with 369 prospective users to examine how outward recording, eye tracking, and AI analysis relate to privacy concerns, societal concerns, wearer stigma, and adoption intentions.
– Developed and tested a model of adoption resistance to understand how the social meaning of wearing smart glasses shapes willingness to use them.

See, Sense, Spark — Proactive AI for Creative Research Ideation — SIGGRAPH Asia 2025 Poster
– Conceived and led the project to investigate how profile granularity shapes AI suggestions and users' research ideation. Built an XREAL system and designed controlled comparisons of profile conditions, analysing generated content, participant questions, interaction logs and self-reports.

No Time to Say Goodbye — Termination and Emotional Loss in AI Companions — CHI EA 2026
– Conceived and led IRO to investigate emotional responses to the end of immersive AI interactions. Built the AI companion and designed a between-subjects experiment comparing abrupt termination with advance notice, measuring emotional loss and immersion.

ThinkCAP — Critical Reading of AI Generated Text — Independent Prototype
– Conceived and led ThinkCAP; prototyped a browser extension, native macOS overlay, and BLE firmware for line focus, critical marking, annotation, and behavioural logging.

Phodong: AI-Based Phygital Story Creation for Children — HCI Korea 2026 Creative Award Grand Prize
– Conceived and led Phodong; directly developed an iOS app using Swift, SwiftUI and Firebase to turn child-discovered objects into personalised stories. Implemented age-adaptive generation, parent-gated controls and discovery-to-story logging; participated in an entrepreneurship programme and received a certificate issued in the name of the Minister of Education.

Sound Accessibility on Smart Glasses — Study Preparation
– Built a Unity/XREAL sound-cue prototype. Preparing interviews and co-design workshops with Deaf and hard-of-hearing participants to inform which sounds smart glasses convey, their presentation, and user control over alerts.

TECHNICAL IMPLEMENTATION AND COURSEWORK

3D Gaussian Splatting Reconstruction and Viewer — WebGL / GLSL, 2025
– Built a COLMAP/3D Gaussian Splatting workflow and reimplemented forward rasterisation, alpha blending, depth sorting, and camera-aware optimisation in JavaScript and GLSL.

Machine Learning Coursework — PyTorch, 2026
– Completed coursework and practical assignments in PyTorch, image classification, recurrent neural networks, and model training and evaluation, including augmentation, regularisation, and validation-based model selection.

Interactive Graphics and Geometry Processing — Three.js / WebGL / GLSL, 2025
– Implemented articulated animation and interactive graphics in Three.js, plus half-edge mesh processing, Catmull–Clark subdivision, and derivative-based texture filtering in GLSL.

AWARDS, EXHIBITIONS, AND CREATIVE WORK

HCI Korea 2026 Creative Award · Grand Prize for Phodong — 2026
Selected Team, 2026 Promising Student Startup Team 300+ · Growth Track — 2026
GS SHOP Content Leader Scholarship · 13th Cohort — Jan 2025
SKKU Summa Cum Laude · Sungkyunkwan University — Feb 2025
Best Award · 2nd Joint Academic Festival of Convergence Colleges — Aug 2024
Best Presentation Award · Cybercommunication Society Spring Conference — May 2024
Ars Electronica 2024 · Miracle on the Han River, project lead and exhibitor, Linz — 2024
HCI Korea 2024 Creative Award Proceedings · Published contribution — 2024
Grand Prize · 2nd Culture and Technology Convergence Major Day Capstone Project Competition — Dec 2023

LEADERSHIP AND ACADEMIC SERVICE

President, 4th Student Council CNT:role, Culture and Technology Convergence — 2023
Led student community programmes at Sungkyunkwan University and helped launch the first joint academic festival across five convergence colleges.

RESEARCH SKILLS

Programming and data	Python; R; Swift; JavaScript; TypeScript; NumPy; pandas
AI, XR, and graphics	PyTorch; scikit-learn; Unity; Unreal Engine; XREAL; SwiftUI; Firebase; WebGL
Research methods	Controlled experiments; preregistration; interaction-log analysis; mixed models; permutation/bootstrap inference; SEM; qualitative coding
Research areas	Human–AI interaction; emotional experience; AR/XR; proactive AI; playful storytelling; experimental evaluation
Languages	Korean (native); Chinese (proficient — six years of residence in China); English (academic reading, writing, and research communication); Finnish (beginner; currently studying)
