

RESEARCH PROFILE

Seeking a funded Doctoral Researcher or Research Assistant position in human-computer interaction, human-AI interaction, immersive systems, mixed reality, or user research, with availability from August–September 2027.

Human–computer interaction researcher combining empirical user research with hands-on development across immersive systems, multimodal AI, machine learning, and real-time computer graphics. Research examines how proactive and relational AI shapes users’ metacognition, agency, perceived control, and social acceptability, particularly in AR smart glasses. Designs and implements the prototypes and experimental apparatus used in her own studies, translating technical concepts into working systems and evaluating their effects through controlled experiments and quantitative modelling.

RESEARCH AND PROFESSIONAL EXPERIENCE

AXIS Lab, Interaction Science Institute, Sungkyunkwan University 2024–present
Undergraduate Research Assistant (2024–Feb 2025); Master’s Student Researcher (Mar 2025–Aug 2026); Researcher (Sept 2026–present). Contributing to projects on proactive AI and human cognitive mechanisms in always-on AI environments, and continuing prototype-based research on AR smart glasses, socially visible sensing, and immersive human-AI interaction.

Researcher and App Developer, Personalized AI Story Generation Project Apr 2026 – present
Developing an application for AI-generated personalized children’s stories based on everyday-object recognition and developmental stage; project supported by Seoul RISE and led by Prof. Changjun Lee.

Assistant Instructor, Generative AI Content Creation Workshop, Hyundai Futurenet Jul 2026
Supported hands-on workshop activities on generative-AI content creation, including participant guidance and practical exercises for producing AI-assisted visual and interactive media.

Research Intern, RGB Makers Co., Ltd. Aug 2025
Analysed first-person interaction data and privacy risks in metahuman-based content, developed a MetaHuman character in Unreal Engine 5, and proposed outdoor interaction scenarios for user-centred immersive experiences.

BK21 Research Assistant, Social Interaction Big Data Education and Research Group Mar – Jun 2025
Supported immersive-device user research at AXIS Lab through literature review, study and protocol preparation, participant recruitment materials, lab setup, research ethics documentation, and data management.

EDUCATION

Sungkyunkwan University · Master of Science in Engineering, Immersive Media Engineering Mar 2025 – Aug 2026
Advisor: Prof. Changjun Lee · AXIS Lab · Cumulative GPA: 4.45/4.50 (99.5/100)

Thesis: *When Sensing Becomes Socially Visible: Wearer Meaning and Adoption Resistance in AR Smart Glasses*

Sungkyunkwan University · Bachelor of Culture & Technology; Bachelor of Economics Feb 2021 – Feb 2025
Major in Culture and Technology Convergence; International Trade Linked Major, Economics Track. Cumulative GPA: 4.32/4.50 (98.2/100). Graduated with SKKU Summa Cum Laude.

SELECTED RESEARCH AND PROJECTS · PORTFOLIO AND DEMOS

AR Smart Glasses and Socially Visible Sensing	Master’s thesis, 2026
– Used a scenario-based experiment with 369 prospective users to compare outward recording, eye tracking, and AI analysis; wearer stigma was the only resistance factor directly associated with lower intention to use.	
– Third study in a programme of work on AR smart glasses, alongside the hardware-based proactive-AI and AI-companion experiments below.	
See, Sense, Spark — Proactive AI for Creative Research Ideation	SIGGRAPH Asia 2025 Poster
– Built a proactive AI system on XREAL Air 2 Pro smart glasses; the poster study recruited 20 researchers (analytic N = 17) and found higher interest-driven curiosity with fine-grained profiles ($p = .016$, $d = 1.30$), later extended in a CHI 2027 manuscript under review.	
No Time to Say Goodbye — Termination and Emotional Loss in AI Companions	CHI EA 2026
– Built IRO and ran a between-subjects experiment ($N = 26$; ANCOVA, $p = .011$), then extended it in Goodbyes Matter (CHI 2027 manuscript under review, $N = 56$), where advance notice reduced immediate loss without reducing immersion.	
Immersive Media Adoption and Value Perception	2025 journal studies
– Studied immersive-media adoption, perceived value, and willingness-to-pay using structural equation modelling, discrete-choice conjoint analysis, and user segmentation.	
Smart Farming, Bright Future · Game-Based Learning Simulation	Researcher · UNESCO GHE · 2025
– Co-developed an educational smart-farming simulation with ten science-based missions using real-time environmental data manipulation.	

SELECTED TECHNICAL DEVELOPMENT

3D Gaussian Splatting Reconstruction and Viewer	WebGL / GLSL, 2025
– Built a COLMAP and 3D Gaussian Splatting reconstruction workflow and reimplemented core forward-rasterisation, alpha blending, depth sorting, and camera-aware optimisation in JavaScript and GLSL.	
Neural Models for Visual and Text Classification	PyTorch, 2026
– Designed and evaluated an MLP for Fashion-MNIST and a padding-aware bidirectional LSTM for IMDb sentiment classification, with controlled comparisons of augmentation, regularisation, pooling, and training configurations.	
Interactive Graphics and Geometry Processing	Three.js / WebGL / GLSL, 2025
– Implemented articulated animation and interactive graphics in Three.js, plus half-edge mesh processing, Catmull–Clark subdivision, and derivative-based texture filtering in GLSL.	

AWARDS, EXHIBITIONS, AND CREATIVE WORK

HCI Korea 2026 Creative Award · Grand Prize for Phodong	2026
Selected Team, 2026 Promising Student Startup Team 300+ · Growth Track	2026
GS SHOP Content Leader Scholarship · 13th Cohort	Jan 2025
SKKU Summa Cum Laude · Sungkyunkwan University	Feb 2025
Best Award · 2nd Joint Academic Festival of Convergence Colleges	Aug 2024
Best Presentation Award · Cybercommunication Society Spring Conference	May 2024
Ars Electronica 2024 · Miracle on the Han River, co-creator and exhibitor, Linz	2024
HCI Korea 2024 Creative Award Proceedings · Published contribution	2024
Grand Prize · 2nd Culture and Technology Convergence Major Day Capstone Project Competition	Dec 2023

LEADERSHIP AND ACADEMIC SERVICE

President, 4th Student Council CNT:role, Culture and Technology Convergence	2023
Led student community programmes at Sungkyunkwan University and helped launch the first joint academic festival across five convergence colleges.	

RESEARCH SKILLS

Programming and data	Python; R; JavaScript; NumPy; pandas
AI, XR, and graphics	PyTorch; COLMAP; Unity; Unreal Engine; Three.js; WebGL; GLSL — used for neural models, 3D reconstruction, real-time graphics, immersive prototypes, and experimental systems
Research methods	Controlled experiments; between-subjects designs; survey experiments; structural equation modelling; discrete-choice conjoint analysis; willingness-to-pay estimation; clustering and segmentation; prototype-based user studies
Research areas	Human–AI interaction; user agency and metacognition; proactive and creative AI; AR smart glasses and wearable XR; AI companions; technology adoption
Languages	Korean (native); Chinese (proficient — six years of residence in China); English (academic reading, writing, and research communication); Finnish (beginner — currently studying)
